EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife. Please see our website for the latest information: <http://www2.epa.gov/region8/gold-king-mine-release-emergency-response>
Regular updates will be posted as they are available.

Comments:

Nonsense. I've read your "bulletin", and I just want to say you did a wonderful job of covering up your absolute FAILURE to do your jobs.

I've been embarrassed by your lack of intervention into the workings of grossly polluting industries - but do you have to personally go out and make things worse by creating a disaster yourselves?

SAD!
